PABLO HERNÁNDEZ

Full-Stack Software Engineer

Monterrey, Nuevo León, Mexico | pbarrera813@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Full-stack software engineer developing React/TypeScript, Go and Python applications across UIs, REST/WebSocket APIs, SQL-backed services, tests and Linux/Docker deployment. Built LLM-driven automation. Active core contributor developing SimpleVoice-Geyser with its original creator (35,000+ Modrinth downloads), and sole developer of its companion Android app. Former John Deere intern delivering internal automation.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Go, Java, Kotlin, Dart, C++

Frontend: React, Astro, HTML, CSS, Tailwind CSS, Material UI, responsive interfaces

Backend & AI: REST APIs, WebSockets, SQL, SQLite, asynchronous services, LLM integration, conversational context, API automation

Mobile: Flutter, Android, native Kotlin audio (AudioRecord/AudioTrack), platform channels, foreground services

Tools & Quality: Git/GitHub, OpenAI Codex, Docker/Compose, Linux/Debian, systemd, automated/regression testing, application security, Scrum

PROFESSIONAL EXPERIENCE

John Deere — Infrastructure Engineering Intern May 2023 – Nov 2023

Monterrey, Mexico | Software automation · SQL · IT infrastructure

- Designed and deployed an internal Self-Checkout solution in Microsoft PowerApps with SQL employee records and badge identification; reduced an IT-accessory request workflow from up to one week to approximately 10 seconds on average.
- Provided Level 2 ticket-based IT support for plant personnel; managed asset inventory and supported infrastructure and operational automation.

SELECTED PROJECTS & OPEN-SOURCE DEVELOPMENT

Orexa Panel — Full-Stack Server Management Platform Feb 2026 – May 2026

React · TypeScript · Go · REST APIs · WebSockets · Docker | Repository

- Built a React/TypeScript UI and Go backend to manage multiple servers, files/plugins, backups, live consoles, users/players, and performance monitoring from one interface.
- Implemented REST/WebSocket services, session authentication, CSRF and trusted-proxy safeguards, login throttling, file-operation validation, automated Go tests, and Docker deployment.

Nitori — AI Assistant & Automation Mar 2026 – Present

Python · LLMs · REST APIs · SQLite · Linux | Repository

- Developed a modular Discord assistant with LLM-powered conversation, external API/tool routing, image/voice and web workflows, and persistent per-server conversational context.
- Structured asynchronous services and SQLite-backed persistence with validation, error handling, regression tests, and systemd deployment on Debian.

Simple Voice App — Sole Developer & Active Maintainer **Jun 2026 – Present**

Flutter · Dart · Kotlin · Android · WebSockets · Audio | Repository | Release 1.0.2

- Sole developer and ongoing maintainer of the SimpleVoice-Geyser companion Android app, integrating Kotlin native audio, WebSocket voice/chat, push-to-talk, secure credentials and actionable background notifications.
- Implemented diagnostics and Flutter tests; published three APK releases, with 200+ downloads of v1.0.2 recorded in October 2026.

SimpleVoice-Geyser — Active Core Contributor **May 2026 – Present**

Java · JavaScript · WebSockets · Audio protocols · Regression tests | GitHub | Modrinth

- Actively develop and maintain the open-source plugin alongside its original creator and other contributors; the project exceeds 35,000 downloads on Modrinth.
- Implemented spatial audio, Android protocol compatibility, proxy/subpath routing, Opus/PCM microphone support and authentication; validated changes with Java/Node tests, Chromium and Debian/Velocity.

Additional: PingPlayer (Java/Fabric/NeoForge, permissions and diagnostics) | Code · Portfolio (Astro/React/Tailwind, responsive UI) | Code

EDUCATION

Universidad Autónoma de Nuevo León (FIME)

Master's in Engineering, Information Technologies | 2026–Present

B.S.-equivalent, Software Technology Engineering (degree awarded) | 2020–2025

LANGUAGES

Spanish: Native | English: Advanced (conversational and technical)
